Robert Pollack, Esq.  
Vice President and General Counsel  
Reilly Tar & Chemical Corporation  
1510 Market Square Center  
151 N. Delaware Street  
Indianapolis, Indiana 46204

Dear Messrs., Schwartzbauer and Pollack:

Enclosed herewith are two documents concerning the implementation of a granular activated carbon treatment system for city of St. Louis Park municipal wells SLP10 and 15. One of the documents is a response to the comments which your contractor, ERT, had made to the Administrative Order which was issued to Reilly Tar on August 1, 1984. The other document is a draft Partial Consent Decree which would settle that portion of the pending litigation relating to the drinking water remedy for SLP10 and 15.

The draft Partial Consent Decree has not yet been approved by the State or City of St. Louis Park. Nevertheless, I request that you review this document and meet with Federal, State and City representatives on November 8, following the pre-trial conference. At that time we could discuss the terms of the Partial Consent Decree and the possibility of settlement.

Please give me a call and let me know whether you would be interested in meeting with us at that time.

Sincerely,

Robert E. Leininger  
Assistant Regional Counsel
